Affordable Luxury Bedroom Tips

Set the mood

The right lighting can help create an air of luxury for less. Install dimmers on existing lighting or use scented candles for an easy way to set a soothing mood.*

Tactile textiles

Textiles create a luxurious feeling in the bedroom. Plush rugs feel great and make chilly floors feel warmer. Use sheers to fashion a billowy canopy using two curtain rods. A colorful 100% cotton duvet cover brightens up the bedroom and feels wonderful against the skin.

Snuggle up

Few things feel as luxurious as a cozy down comforter. Look for one that provides the right warmth level. If allergies are an issue, try down alternatives. New materials like modal and lyocell wick moisture from the body for sleeping comfort.

Pillow talk

Adding pillows of various shapes and sizes is an inexpensive way to help bring a luxurious look and feel to the bedroom. Consider mixing and matching different types of pillows including round, bolster and European square.

Touch of glitz

Little items mean a lot. Small, pretty mirrors, photo frames and simple yet elegant vases add a bit of opulence. Try clustering small items or collections in one area rather than scattering them to avoid a cluttered feeling.

*Remember! Never leave a burning candle unattended.
